

# Taming Large Models with Hawk and NeoEMF

---

A. García-Domínguez, D. S. Kolovos, K. Barmpis, G. Daniel, G. Sunyé  
MoDELS'2018, 14–19 October 2018

## Wrap-up

---

## Use cases

- For fast querying with no changes to persistence: Hawk
  - Make sure your models are fragmented
  - Hawk will only re-index the changed fragments
- For scalable storage with no fragmentation: NeoEMF

## Feedback and contributions welcome!

- Hawk, NeoEMF and Mogwai are all open-source
- Chat with us if you have an idea for an application
